

Online Construction Safety Orientation

Emprowise and Safety Advantage are excited to announce the release of the online **Construction Safety Orientation** (CSO) library to their customers and partners in the safety community. The CSO Library encompasses 20 courses that are divided into four sections. Each section is available on the Emprowise site at a rate of \$15.00 each. The package price for all four modules (20 courses) is \$60.00. All company records will be available online and can be posted to your ISNetworld RAV's training and Training Manager.
